

**GUJARAT TECHNOLOGICAL UNIVERSITY****BE - SEMESTER-VI (NEW) EXAMINATION – SUMMER 2022****Subject Code:3162211****Date:10/06/2022****Subject Name:Drilling Blasting Technology****Time:10:30 AM TO 01:00 PM****Total Marks: 70****Instructions:**

1. Attempt all questions.
2. Make suitable assumptions wherever necessary.
3. Figures to the right indicate full marks.
4. Simple and non-programmable scientific calculators are allowed.

**MARKS**

- |            |     |  |           |
|------------|-----|--|-----------|
| <b>Q.1</b> | (a) | Define drilling and its purposes.  | <b>03</b> |
|            | (b) | Explain the fundamentals of percussive & rotary percussive drilling method.  | <b>04</b> |
|            | (c) | What is mechanics of drilling? Compare Top hammer drilling with Down the hole hammer drilling in detail.             | <b>07</b> |
| <b>Q.2</b> | (a) | Identify the factors/parameters that influence the selection of drills.  | <b>03</b> |
|            | (b) | Describe various type of permitted explosive with specific features of each type.                                    | <b>04</b> |
|            | (c) | Explain rock breakage mechanism under percussive drilling method.  | <b>07</b> |
|            |     | <b>OR</b>  |           |
|            | (c) | Explain the importance and construction of magazine, discuss about storage of explosive.                             | <b>07</b> |
| <b>Q.3</b> | (a) | How do you select an explosive for blasting in mines?  | <b>03</b> |
|            | (b) | Write a short note on Water-jet drilling.  | <b>04</b> |
|            | (c) | Explain the types of detonators and its uses with neat sketch.   | <b>07</b> |
|            |     | <b>OR</b>  |           |
| <b>Q.3</b> | (a) | Compare low explosive with high explosive.   | <b>03</b> |
|            | (b) | Explain general test procedure of explosive.   | <b>04</b> |
|            | (c) | What is secondary blasting? Explain the types of secondary blasting.   | <b>07</b> |
| <b>Q.4</b> | (a) | What are the causes of air over pressure in open cast mines?   | <b>03</b> |
|            | (b) | Explain the basic mechanism of blasting.   | <b>04</b> |
|            | (c) | Describe physical properties, chemical composition and application of emulsion explosive.                            | <b>07</b> |
|            |     | <b>OR</b>  |           |
| <b>Q.4</b> | (a) | How Interpretation of borehole data is done?   | <b>03</b> |
|            | (b) | Explain the causes and remedies of ground vibration.   | <b>04</b> |
|            | (c) | What do you understand by exploration drilling? Explain Various types of exploratory drills and their applicability. | <b>07</b> |
| <b>Q.5</b> | (a) | Explain Livingstone theory of crater formation.  | <b>03</b> |
|            | (b) | How burden and spacing is estimated? Explain with one example.   | <b>04</b> |
|            | (c) | What do you mean by detonator factor? Also explain the blast design for horizontal drivages in metal mines.          | <b>07</b> |
|            |     | <b>OR</b>  |           |
| <b>Q.5</b> | (a) | Explain the Initiation patterns using in blasting.   | <b>03</b> |
|            | (b) | What do you mean by blasting-off-solid?  | <b>04</b> |
|            | (c) | Write a brief note on 'long hole blasting' and 'vertical crater retreat blasting' method.                            | <b>07</b> |
