Seat No.: _____

GUJARAT TECHNOLOGICAL UNIVERSITY

Subject Node:3162202 Subject Name:Underground Metalliferous Mining Time:10:30 AM TO 01:00 PM Instructions: 1. Attempt all questions. 2. Make suitable assumptions wherever necessary. 3. Figures to the right indicate full marks. 4. Simple and non-programmable scientific calculators are allowed. (b) List the applicability condition for the room and pillar mining method. (c) Explain the factors affecting the choice of underground metal mining method. (d) Classify stoping methods. (e) Explain shrinkage stopping method and its applicability. (f) Classify stoping methods. (g) Differentiate between sub-level caving and sub-level stoping. (g) Differentiate between sub-level caving and sub-level stoping. (g) Differentiate between sub-level caving method. (h) Write a note on supported stoping method. (b) Write a note on supported stoping method. (c) Explain the sublevel stoping method with a suitable diagram. OR Q.3 (a) Define caving method. (b) Write short note on: (c) Explain rill stoping method. (d) Write short note on: (e) Explain rill stoping method. (f) Explain rill stoping method. (g) Explain the phases and planning guidelines for mine closure. (h) List the merits and demerits of the caving method. (g) Explain the phases and planning guidelines for mine closure. (h) Explain rill stoping with a suitable diagram. (g) OR Q.4 (a) Differentiate between raise and winze. (b) Explain the block caving method with a suitable diagram. (c) Explain the square-set stopping method. (d) Explain the square-set stopping method. (e) Explain the square-set stopping method. (f) Explain the square-set stopping method. (g) Explain the square-set stopping method. (h) Explain the square-set	a .	• .	BE - SEMESTER-VI (NEW) EXAMINATION - SUMMER 2022	10000

(c) Explain the phases and planning guidelines for mine closure. OR Q.4 (a) Differentiate between raise and winze. (b) Explain sublevel stoping with a suitable diagram. (c) Explain the block caving method with a suitable diagram. Q.5 (a) Define i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define OR Q.5 (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define OR Q.5 (b) Define OR Q.6 (c) Explain the sub-level caving method with a suitable diagram. OR Q.7 (c) Define OR Q.8 (d) Define OR Q.9 (e) Define OR OR OR OR OR		` /			
Q.4 (a) Differentiate between raise and winze. (b) Explain sublevel stoping with a suitable diagram. (c) Explain the block caving method with a suitable diagram. Q.5 (a) Define i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define i. Grade ii. Grade ii. Cut-off grade iii. Breakeven cut-off grade.			<u> </u>	07	
(b) Explain sublevel stoping with a suitable diagram. (c) Explain the block caving method with a suitable diagram. Q.5 (a) Define i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define i. Grade ii. Grade iii. Cut-off grade iii. Breakeven cut-off grade.			OR		
(c) Explain the block caving method with a suitable diagram. Q.5 (a) Define i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.	Q.4	(a)	Differentiate between raise and winze.	03	
Q.5 (a) Define i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.		(b)	Explain sublevel stoping with a suitable diagram.	04	
i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.		(c)	Explain the block caving method with a suitable diagram.	07	
i. Ore ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.	~ -				
ii. Mineral iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.	Q.5	(a)		03	
iii. Gangue (b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.					
(b) Explain the square-set stopping method. (c) Explain the sub-level caving method with a suitable diagram. OR OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.					
(c) Explain the sub-level caving method with a suitable diagram. OR Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.		(b)	ϵ	0.4	
Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.			· · · · · · · · · · · · · · · · · · ·		
Q.5 (a) Define i. Grade ii. Cut-off grade iii. Breakeven cut-off grade.		(C)	<u> </u>	U/	
i. Gradeii. Cut-off gradeiii. Breakeven cut-off grade.	0.5	(a)		03	
ii. Cut-off gradeiii. Breakeven cut-off grade.	Q.S	(a)		US	
iii. Breakeven cut-off grade.
